Mixed Farming

Arguments Advanced in Favour of Mixed Farming and Cattle Raising

The trials in wheat farming in Western Canada is being met with the effect, at least, it is causing those interested to take stock of the situation and devise appropriate remedies. If your after year abundant crops were secured, no difficulties were encountered in marketing them at profitable prices, the result would be that wheat would not only be the main crop, but it would be the only crop that would be profitable. The suggested effect of the grain is that the wheat crop is the only crop that would be profitable. The suggested effect of the grain is that the wheat crop is the only crop that would be profitable.

It is pointed out that at present Canadian wheat is sold at a better price than in New Zealand, and a certain amount of money is being made. The wheat is sold at a better price than in New Zealand, and a certain amount of money is being made. The wheat is sold at a better price than in New Zealand, and a certain amount of money is being made.

Why Get Stung

Methods Of Removing Hives From The Bee Hive

"Why get stung?" is the pertinent question. The answer is, "You get stung because you are not taking proper precautions." The answer is, "You get stung because you are not taking proper precautions."

Marketing Poultry

Market During The Balance Of The Year Will Be Restricted

The balance of the year is going to be a trying one, because the most difficult part of the year is the winter. The balance of the year is going to be a trying one, because the most difficult part of the year is the winter.
